3 hours
12 hours
48 hours
1 week
same hour
within a day
moved >1 day, to a near-tie (within 5% of the peak)
moved >1 day, to a clearly lower day
c Heating peak size: a 10-hour peak is steadier
d Cooling peak size: the same pattern, smaller
peak error, W/m²
single peak hour: median (dot) to 95th percentile
mean of the 10 highest hours: median (dot) to 95th percentile
